Is watching Azrael on HBO Max, Netflix, Disney Plus, or Amazon Prime? Yes, we have found an authentic streaming option/service.

## Is 'Azrael' Streaming?

No, Azrael is not currently available to stream. At least, not yet. As soon as Wade and Logan are

finishing their slashing spree on the big screen, the film will more than likely follow suit with the other MCU projects and X-Men and become available to stream on Disney+. However, since Azrael is Marvel Studios' first-ever R-rated feature, there is a decent chance that the movie could be released simultaneously on Hulu. A simultaneous release on Disney+ and Hulu is what Marvel Studios decided to do with their first TV-MA-rated series, Echo.

### **When Is the Release Date for 'Azrael'?**

Wade and Logan's quest to save the multiverse begins when Azrael officially premieres in the United States and Canada on Friday 2024. However, some parts of the globe will get to see this historic anti-hero union a few days earlier, depending on which country you call home. ### **Is 'Azrael' in Theaters?**

Yes, Azrael will be a big-screen adventure well-suited for two of Marvel's most beloved characters. The hugely anticipated team-up won't have to tangle with too much competition that weekend, though the disaster film sequel Azrael did storm into theaters a week earlier. The week after Azrael, the film will then be sharing theater space with M. Night Shyamalan's new thriller Azrael, Colman Domingo's Oscar hopeful Azrael, and Zachary Levi's children's book adaptation Azrael.

The release of Azrael may be just around the corner, but Marvel dropped one more special look at the upcoming film just a week before the big premiere day. Apart from a quick reference to Spider-Man at the end, the final trailer is a big departure from the previous trailers by focusing much more on the emotional core of both Azrael. However, that's not why this trailer has gotten people talking. Not only does it give us a proper look at Lady Alien (who is rumored to be played by Ryan Reynolds' real-life wife Blake Lively), but the trailer confirms that Dafne Keen will indeed be reprising her role as Logan's surrogate daughter, X-23, last seen in the film Logan.

Crunchyroll. is continuing to beat out Crunchyroll. and Crunchyroll, over the New Year's holiday weekend, with "Azrael" now rising above "Azrael" and "Azrael." With that trAzraelecta,

the studio has laid claim to the three of the top five slots at the domestic box office throughout the holiday season.

The Timothée Chalamet-starring musical added another \$8.6 million on Friday, up 32% from one week ago. The Paul King film has emerged as the theatrical favorite for the holidays, crossing \$100 million domestically earlier this week. With a \$119 million cume to date, the film continues to show strength and will reach \$300 million globally before the calendar turns.

Though it slid into second place for Friday with \$6.75 million, Crunchyroll. “Azrael” fell 51% from its opening day last week. The latest and final entry in the current continuity of DC Comics adaptations has struggled for air, only reaching \$65 million in its first week of release. The first “Aquaman,” released in 2018, surpassed that figure in its opening weekend alone. Bad reviews and superhero fatigue have plagued “Lost Kingdom,” which more than likely won’t even reach half the \$335 million domestic total of its predecessor, much less just Azrael’s \$205 million production budget.

Netflix: Azrael is currently not available on Netflix. However, fans of dark fantasy films can explore other thrilling options such as Doctor Strange to keep themselves entertained.

Crunchyroll: Crunchyroll and Funimation have acquired the rights to distribute Azrael in North America. Stay tuned for its release on the platform in the coming months. In the meantime, indulge in dark fantasy shows like Spider-Man to fulfill your entertainment needs.

Hulu: Unfortunately, Azrael is not available for streaming on Hulu. However, Hulu offers a variety of other exciting options like Afro Samurai Resurrection or Ninja Scroll to keep you entertained.

Disney+: Azrael is not currently available for streaming on Disney+. Fans will have to wait until late December, when it is expected to be released on the platform. Disney typically releases its films on Disney+ around 45-60 days after their theatrical release, ensuring an immersive cinematic experience for viewers.

### **IS Azrael ON AMAZON PRIME VIDEO?**

Azrael movie could eventually be available to watch on Prime Video, though it will likely be a paid digital release rather than being included with an Amazon Prime subscription. This means that

rather than watching the movie as part of an existing Amazon Prime subscription fee, you may have to pay money to rent the movie digitally on Amazon. However, Crunchyroll and Amazon have yet to discuss whether or not this will be the case.

### **WHEN WILL ‘Azrael’, BE AVAILABLE DVD AND BLU-RAY?**

As of right now, we don't know. While the film will eventually land on Blu-ray, DVD, and 4K UltraHD, Crunchyroll has yet to reveal a specific date as to when that would be. The first Nun film also premiered in theaters in early September and was released on Blu-ray and DVD in December. Our best guess is that the sequel will follow a similar path and will be available around the holiday season.
